

The Quest – Part 8

Eyes Of Horus

long goodbye
and short hello
the traffic lights of knowledge switch to black
the roundabout of life points up

so long, brave new world
worlds of all ages, come here
where dreams go by
winding up from the past
circling round today

mouths foretell the *myths* of yesterday
the unheard echo breaks the silence
the sound just fades to grey
extending the colours of the rainbow

quadrophonic sounds sound mono
octaphonic sounds spread into new dimensions

statues of gold
fly thru the air
the unbound knots parade
night-time is so funny

on the top of nothing
darkness is everywhere
at the eclipse of infinity
colours unite to white

to seek the truth in life
to throw the dice of fate

Music & Title by Robert Sillat, Music arranged by the Principles of Uncertainty

explore the areas
behind the turning point

to find the truth of life
to read the dice of fate
to pass the turning point
the realms of no return

queer tidings wrapped in lucid minds
trigger colibri-revolutions
pet shop animals tiptoe to nightmare's gathering
at the center of the infinite line

forget what you were looking for
escape the borders of reality
overwhelm the reign of lies
take the challenge of sweet life
and tell me who i am
